I apologize for the delay. Once again, I have not turned up the original Super Salvage file.

Rob and Chuck,

We have repeatedly been asked for these files. I am very familiar with the location prior to our reorganization. But, it seems that all of the storm water case files contained in those two bottom drawers have grown legs and walked away. I can now think of one additional place to check. I will check into this location after my 3 pm conference call.

Thanks,

-Ingrid

Chuck, There is a question about a site I inspected "SUPER SALVAGE" in 2000 (see attached

email and aerial links below). It was part of the storm water program's Anacostia Initiative in Washington DC. This was about the time I left Water and went to Superfund. There was a bottom drawer filing cabinet on the 12th floor near Laurie's office, it was filled with all the case files for these storm water cases, Do you have any idea what became of the files? Maybe they were put back in the Water Program's File Room when you moved? If so, can you check there for Dan Isales and Allison Gardner? I copied Kevin since he was probably with me on the inspection and maybe Ingrid was helping with this initiative..

If you find anything please forward to Dan or Allison Gardner

Rob

Rob,

First of all, I hope you are well and enjoying Florida. I apologize for bothering you, but Allison Gardner and I have been assigned a multimedia enforcement matter for a facility out of DC that we believe you were involved with previously. The facility is Super Salvage and back in 2000 the Region issued an order which listed you as the enforcement officer for it (order attached). Does this ring any bells at all? Do you recall what happened with this matter? We have already checked with the water enforcement branch and the attorney assigned (Stef Shamet) and neither has any files (beyond a copy of the order itself). Any help is appreciated. If you would prefer to discuss this over the phone, just let me know which is the best number to reach you at and generally speaking when is the best time for you to talk. Thanks, Dan
